👤 Career Objective

Skilled in web development, Tableau, and Power BI visualization, with strong technical and analytical skills. Dedicated to driving data-driven decision-making and innovating solutions for real-world projects

🎓 Education

(B.Tech) Computer Science and Engineering,
KL-University, CGPA : 9.39

2021 – 2025 | Guntur, India

Intermediate, *Sri Chaintanya Jr.college, CGPA : 9.54*

2019 – 2021 | Tenali, India

10th, *ST.John's English Medium School, CGPA : 10*

2018 – 2019 | Tenali, India

🧠 Skills

Programming: Java, SQL, Python(basic)

Visualization Tools: Tableau, Power BI, Excel

Web Development: HTML, CSS, JavaScript, MongoDB

Soft Skills: Time Management, Team Management, Presentation skills

📑 Certification Courses

Data Visualisation: Empowering Business with Effective Insights ⊡

Introduction to Data Analytics ⊡

Java(Basic) ⊡

📁 Projects

Andhra Pradesh 2024 Election Dashboard ⊡

Developed an interactive Tableau dashboard for analyzing the 2024 Andhra Pradesh elections, simplifying complex voting data. Provided insights into MP voting seats, district-level patterns, and constituency details. Ensured user-friendly design for easy exploration of election data.

Food Delivery ⊡

- Developed a food delivery app using the MERN stack, featuring secure user login, Stripe payment integration, real-time order tracking, and an admin portal for managing food items and orders. Designed a custom logo for "Food Magic" to enhance brand identity.
